Subject: EA for BRP (DPR-6) in consideration of an exemption request

Dear Mr. Yale –

Thank you for taking my call this afternoon. Per our conversation, please find attached the draft environmental assessment (EA) and finding of no significant impact (FONSI) for the Big Rock Point (BRP) Independent Spent Fuel Storage Installation (ISFSI).

The EA was performed to evaluate the environmental impacts of the proposed exemption request submitted by Entergy Nuclear Operations (ENO) for the BRP ISFSI. ENO submitted the exemption request by letter dated June 20, 2012. ENO requested exemption from specific portions of 10 CFR 50.47 and 10 CFR Part 50, Appendix E.

Based upon the analysis contained in this EA, the staff concludes that the proposed action will not have a significant impact on the quality of the human environment. Accordingly, the staff has determined that preparation of an environmental impact statement is not warranted. This conclusion will be documented in the *Federal Register* as required by 10 CFR 51.35.

License No.: DPR-6
Docket No.: 50-155 and 72-43
Attachment: Environment Assessment
