Name of Licensee: Ohio Valley Medical Center

Name of Participant(s): Robert Humenik – Medical Physics Consultant, Ohio Medical Physics Consulting, LLC
Bryon M. Murray, Radiation Safety Officer (RSO) and AMP
Carl F. Landis – AMPTelephone No. (614) 557-4251
(888) 245-6672 ext. 8

Subject: Additional information for license renewal

(NOTE: This will be used as the
Documents Title in ADAMS)

1. I called to find out the status of the deficiency response to the request for additional information (RAI) dated June 14, 2013. I spoke with Mr. Humenik, the contact person listed on the application, and was referred to both the RSO and the AMP regarding clarification of several items in the request for additional information. The RSO explained that they are all fairly new to the program and had some difficulty retrieving some old information about the facilities. I informed the licensee to have one point of contact to avoid duplication of efforts. Mr. Humenik agreed to provide a signed copy of the deficiency response by COB this week.
2. Although currently licensed for inpatient therapy under 10 CFR 35.300, the renewal application did not provide information on inpatient therapy rooms. I inquired in the RAI about inpatient therapy services and a detailed description of any assigned rooms. Mr. Humenik informed me that he clarified with the licensee and they are fine with not having this authorization on their license as they no longer perform any inpatient therapy services under 10 CFR 35.300. I informed him that this change will be reflected in their renewed license.

Action Required: Await receipt of additional information
