Attention: Samuel S. Lee, Chief, Environment Projects Branch 2, NRO

Subject: Notification of Submittal Schedule for the APR1400 DCD

With reference to the letter (MKD/NW-12-0006L) dated October 25, 2012, please be informed that the Design Certification Application for the APR1400 would be submitted at the end of September 2013. The schedule adjustment is requested due to additional necessary time required to improve the completeness of the DCD.

KEPCO/ KHNP have been working intensively on the DCD to improve the completeness by enhancing level of detail and consistency based on the feedback from the June 3-7 pre-application audit.

We are doing our best to improve the quality of the DCD and meet the targeted schedule.

Please be advised that the KHNP's contact point for the APR1400 design certification is also changed to Mr. Young-Hyun Jeong whose contact information is provided below.

Sincerely,

Byung-Oke Cho
Executive Vice President
Safety & Technology Division
Korea Hydro & Nuclear Power Co., Ltd
