Mr. James A. Gresham, Manager  
Regulatory Compliance  
Westinghouse Electric Company, LLC  
Suite 310  
1000 Westinghouse Drive  
Cranberry Township, PA 16066

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE  
IN RESPONSE TO TRANSMITTAL OF "SUPPLEMENTAL INFORMATION  
RELATED TO CLOSURE OF THE CORRECTIVE ACTION IDENTIFIED IN THE  
RESPONSE TO CRR-001" FOR WCAP-17524 (PROPRIETARY/NON-  
PROPRIETARY)

Dear Mr. Gresham:

By letter dated June 26, 2013, Westinghouse Electric Company, LLC (Westinghouse) submitted an affidavit dated June 26, 2013, executed by James A. Gresham, which requested that the information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

LTR-NRC-13-43, Transmittal of WCAP- 17524-P "Supplemental Information Related to Closure of the Corrective Action Identified in the Response to CRR-001"  
(Proprietary/Non-Proprietary)

A non-proprietary copy of the document has been placed in the U.S. Nuclear Regulatory Commission's (NRC) Public Document Room and added to the Agencywide Documents Access and Management System Public Electronic Reading Room under Accession No. ML13221A155.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (a) The information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any of Westinghouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies;
- (b) If used by a competitor it would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing of a similar product; and
- (c) It reveals aspects of past, present, or future Westinghouse or customer funded development plans and programs of potential commercial value to Westinghouse.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure. Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-6715.

Sincerely,

/RA/

Bruce M. Bovol, Project Manager  
Licensing Branch 4  
Division of New Reactor Licensing  
Office of New Reactors
