Dear Mr. Tran,

This letter is a follow-up from the request you spoke with Renee Carlson about on the phone last week. Per your request I am writing you to let you know that the following requests have been completed:

1. There will be no PET radiopharmaceuticals used in the new area.
2. The "recommended" shielding thicknesses from the shielding design have been upgraded to minimum mandatory thicknesses.

I trust that this information will answer your questions and allow for the new space to be put on the license. If not, please don't hesitate to contact me at 816-841-5093 or 816-807-8090.

Sincerely,

Marcia R. West
Regional Health Physicist
