

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION I
2100 RENAISSANCE BOULEVARD, SUITE 100
KING OF PRUSSIA, PENNSYLVANIA 19406-2713

August 26, 2013

Docket No. 040-00791
Control No. 581153

License No. SMB-151

L. Renée Welsh
Director, EHS & Facilities-MCO
Pratt and Whitney
A United Technologies Company
400 Main Street
MS: 101-29
East Hartford, CT 06108

SUBJECT: UNITED TECHNOLOGIES CORPORATION, PRATT AND WHITNEY, LICENSE
AMENDMENT, CONTROL NO. 581153

Dear Ms. Welsh:

This refers to your license amendment request. Enclosed with this letter is the amended license. The remaining pad from Building 10, Middleton, Connecticut may be released for unrestricted use.

The Middleton, Connecticut site remains listed on your license. Additional information, as described in our letter dated May 23, 2013, is required in order to determine if the site meets the release criteria specified in Subpart E of 10 CFR Part 20.

Also, based on telephone calls and electronic mail, we understand that Sandy Soucy, the Radiation Safety Officer (RSO) named on this license, has retired. We further understand that you intend to submit the name and qualifications of a new person to the NRC for review, with a request to amend the license to list the new RSO. Please provide this information as soon as possible.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,

Original signed by Elizabeth Ullrich

Betsy Ullrich
