**Subject:** FW: Wolf Creek AIT is requesting an IOEB team member to be assigned to support the AIT  
**Attachments:** FW: Draft Wolf Creek AIT Charter

Harold/ Jesse, RE: Wolf Creek AIT support – a request for an IOEB team member assigned,

I talked with Fred and his position was basically – DIRS is a support organization for the Regions and if they request the support or **a team member** we will supply them what they request, whenever possible.

Therefore, I have given **Jesse Robles** this assignment (as the normal Region-IV IOEB POC), realizing this may affect his clearinghouse work while supporting the AIT for the next several weeks (charging his time to the AIT TAC). Others in the clearinghouse / analysis teams may have to either help him with his normal duties... or assist him with search requests from the AIT. Currently they do not see a need for Jesse to go to Wolf Creek, they indicated that he can provide support from headquarters.

Neil O'Keefe has listed **Jesse Robles** on the AIT team Charter (**see attached email**). Others in the branch please support these efforts and assist Jesse, if he needs any additional help.

Thanks in advance for your teamwork to support the Wolf Creek AIT,  
Mark
