Subject: Revised Final Response Dates for Fourth Request for Additional Information Regarding ANP-10287P, "Incore Trip Setpoint and Transient Methodology for U.S. EPR Topical Report" - RAI 31 - 36

Amy,

On June 28, 2013, AREVA provided Proprietary Advanced Responses to the fourth request for additional information regarding ANP-10287P, "Incore Trip Setpoint and Transient Methodology for U.S. EPR Topical Report." AREVA requested NRC staff feedback and comments no later than August 16, 2013 to support a final response on August 30, 2013.

AREVA has provided additional information to support the NRC staff review of the RAI responses. AREVA and NRC have discussed holding a series of public meetings leading to an audit of the supporting calculations. AREVA is re-evaluating the schedule for the remaining U.S. EPR activities and would appreciate staff feedback on the RAI responses so that AREVA can better determine when the final responses can be submitted. A revised schedule for the final RAI responses is provided below:

Final Response Date **TBD**

Sincerely,

Nathan Hottle

Hi Dennis,

Any update on when AREVA plans to provide the dates for the advanced and final response responses? The RAI for the topical report will be a letter format. I will put the dates in the letter.

Staff agrees with your proposed changes- I will make the changes when I send the final RAI.
