Subject: Request for Clarification on the URENCO USA Response to NRC Request for Additional Information Dated July 31, 2013

Tim,

This is a follow up to the "Response to NRC Request for Additional Information on License Amendment Request (LAR) 12-10 Related to the Environmental Assessment for Capacity Expansion of URENCO USA Facility (TAC NO.L34227)," LES-13-00100-NRC, dated July 31, 2013.

In the response to the RAI 3, some doses to construction workers exceed allowable limits for the public. Please clarify the status of these workers. Are these construction workers considered to be (and have the relevant training to be classified as) radiation workers?

Thank you

Asimios Malliakos
