Dr. Vázquez,

We received a letter dated May 21, 2013 requesting the termination of your NRC byproduct materials license. On August 31, 2013, I attempted to contact you at 787-833-1000 and found that the number was no longer in service. In order to terminate the license, we will need the following additional information:

1. A completed NRC Form 314 (<http://www.nrc.gov/reading-rm/doc-collections/forms/nrc314.pdf>),
2. Results of your final close out survey,
3. Most recent leaks test results for your sealed sources,
4. Disposal records for all byproduct materials (sealed and unsealed), and
5. Final date of operations.

Once we have received these documents, we will proceed with the termination of your license. Please note, annual fees will continue to be assessed until the license is officially terminated. If you have any questions, feel free to contact me through e-mail or telephone. My number is 610-337-5272.
