Re: Amendment to License 24-008890-01

Saint Luke's Hospital of Kansas City (SLH), License 24-00889-01 would like to amend the license to include the following:

- 1) Correction to license amendment 87 in section 9 items J and K should be switched. The authorized use in item J references byproduct source listed in item K and the same is true for use in item K references byproduct source listed in item J.
- 2) Wish to request that license item 10.B and 10.C be combined so that all the nuclear medicine locations listed in 10.B and 10.C are permitted for the same uses of licensed material listed in sub items 6.A, 6.B, 6.C, and 6.G.
- 3) Facility listed on license item 10.B Saint Luke's Hospital of Chillicothe (d/b/a Hedrick Medical Center), 100 Central Street, Chillicothe, Missouri is building a new facility. There will be a short time where both facilities will need to be on the license at the same time in order to transfer material and start up the new nuclear medicine facility. I am requesting the new facility be added to the list of locations in item 10.B the address is Saint Luke's Hospital of Chillicothe (d/b/a Hedrick Medical Center), 2799 North Washington Street, Chillicothe, Missouri. [Informational Note – The estimated time of the new facility opening is February 2014, shortly after the new facility is open I will do a close-out survey of the old facility and submit to the NRC for removal of the old facility from our license.]

If you have any questions, please contact me at (816) 932-6262.

Thank you for your consideration.

Roy Sions
Radiation Safety Officer
