KING OF PRUSSIA, PENNSYLVANIA 19406-2713

September 5, 2013

Docket No. 03035233
Control No. 581102

License No. 06-30537-01

Robert D. Sackstein, M.D.
Managing Partner and Radiation Safety Officer
PriMed, LLC d/b/a
Connecticut Heart & Vascular Center, PC
2979 Main Street
Bridgeport, CT 06606

SUBJECT: PRIMED, LLC D/B/A CONNECTICUT HEART & VASCULAR CENTER, PC,
LICENSE AMENDMENT, CONTROL NO. 581102

Dear Dr. Sackstein:

By letter dated May 31, 2013, Connecticut Heart & Vascular Center, PC submitted to the U.S. Nuclear Regulatory Commission (NRC) a Request for Consent to a direct license transfer of NRC Materials License No. 06-30537-01. Based on the information you provided, we understand that effective January 1, 2012, assets including the NRC license, were transferred to PriMed, LLC. In addition, as a result of the sale, the existing facility at 2979 Main Street, Bridgeport, Connecticut and the new location at 112 Quarry Road, Suite 400, Trumbull, Connecticut, will be operated under the PriMed, LLC d/b/a Connecticut Heart & Vascular Center, PC license, License No. 06-30537-01. We further understand that this transfer did not result in any change to licensed material, persons using the license material, location of use of licensed material, or persons responsible for the licensee's radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, we have no objection to the transfer. Enclosed with this letter is the amended license changing the licensee name to PriMed, LLC d/b/a Connecticut Heart & Vascular Center, PC, keeping the facilities and materials of Connecticut Heart & Vascular Center, PC, and adding a new location of use at 112 Quarry Road, Suite 400, Trumbull, Connecticut, under NRC License No. 06-30537-01. However, we understand that the sale took place on January 1, 2012. In accordance with the NRC Enforcement Policy, this is an apparent violation of NRC requirements. 10 CFR 30.34(b) requires, in part, a consent in writing from the Commission, prior to transfer of control of an NRC license to any person. This issue will be discussed in separate correspondence.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADMAS). ADMAS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers. An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement is not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,

Original signed by Maryann Abogunde
