Subject: License Termination

---

NRC Document Control Desk,

I am writing this letter to inform you that USON L.P. does not intend to renew our NRC license 42-23907-01E which expires September 30, 2013. I have attached our final distribution report and reports for calendar years 2011 and 2012 which had no activity.

We currently also have a Texas State license that we will be terminating also.

Uson will no longer distribute or repair the Q200 Leak Meter which contained a Ni-63 sealed source.

Please contact me at the number below or at [dashb@uson.com](mailto:dashb@uson.com) if you have any questions.

Best Regards,

Dan Ashby  
Director Quality Assurance
