Interestingly, I just talked to Jeremy, who said we might send it as an e-mail because of the short time involved. We will see.

I am pretty sure that we are moving forward with the letter. I am looking at what you put together right now, Paula.

Thanks Dennis,

I'll update the second to last paragraph as well (removing "the only objection" to "An objection") but I'll wait for Briana's comments before passing on the final version.

I'm a tad confused though, are we still moving forward with the letter or are we switching to an email?

Paula,

I have some suggested edits in the attached file. NMFS has concerns are broader than the just the structure of intake, and I tried to express this.

Briana & Dennis,

If you wouldn't mind reviewing the letter prior to my sending it to typing, I'd really appreciate it.

Thanks,

Paula Cooper
