Scarce

630-545-9710

SUBJECT

Response to attached email message dated 9/11/13

SUMMARY

The inspector requested more information in response to the attached email message. Scarce is a source for getting answers for recycling questions. A woman named Dianne resides in Glen Ellyn, IL. Her deceased husband used to work in research. She found 2 vials of radiological pharmaceuticals in what she thinks may be in lead (film strip size) containers with foil wrapping.

Kay declined to provide Dianne's last name, address, and phone number. Kay said she will contact Dianne and ask her to call me back so that I can obtain information necessary to respond to the situation.

ACTION REQUIRED

Briefed Ann Marie Stone

Contacted IEMA: I briefed Andy Gulczynski, an IEMA inspector in West Chicago, IL regarding the above information. Andy asked me to have Dianne call him and he would respond to Dianne's residence and conduct a complete characterization of the radioactive material by 9/13/13. Andy's phone number is 630-293-8286, and his email address is andy.gulczynski@illinois.gov.
