In the Matter of
CROW BUTTE RESOURCES, INC.
(License Renewal for the In Situ Leach Facility, Crawford, Nebraska)
Docket No. 40-8943; ASLBP No. 08-867-02-OLA-BD01

Dear Administrative Judges:

In its Order dated January 8, 2009, the Atomic Safety and Licensing Board ("Board") directed the NRC staff ("Staff"), commencing on January 15, 2009, to tender each month "a short report advising as to whether the estimated dates for issuance of the final [Safety Evaluation Report ('SER')] (predicted for summer/fall of 2009) and final [environmental review document] (predicted for December of 2009) have changed or become more definitive."

By letter dated January 2, 2013, the Staff informed the Board and the parties of the public availability of the SER. The document can be accessed electronically via ADAMS Accession Number ML103470470.

The process of developing and promulgating relevant information for public consumption and comment has taken longer than the Staff initially anticipated. As such, the Staff now expects to issue the final environmental review document by the end of November 2013. The Staff still anticipates in the near future releasing for public comment information related to its Section 106 evaluation. When such occurs, the Staff will notify the Board and the parties.

In keeping with the Board's mandate, the Staff will tender its next monthly status report by October 16, 2013.

Respectfully submitted,

Signed (electronically) by
Brett Michael Patrick Klukan
Counsel for the NRC Staff

CERTIFICATE OF SERVICE

I hereby certify that copies of the foregoing "NRC STAFF'S LETTER TO THE ATOMIC SAFETY AND LICENSING BOARD" in the above captioned proceeding have been served via the Electronic Information Exchange ("EIE"), the NRC's E-Filing System, this 16th day of September 2013, which to the best of my knowledge resulted in transmittal of the foregoing to those on the EIE Service List for the above captioned proceeding.
