SUBJECT: LAWRENCE & MEMORIAL HOSPITAL, LICENSE AMENDMENT, CONTROL  
NO. 581370

Dear Mr. Cummings:

This refers to your license amendment request dated July 1, 2013. Enclosed with this letter is the amended license adding a location of use at 196 Parkway South, Suite 103, Waterford, Connecticut. However, we understand that you have been operating in the same location under your other license (License No. 06-30826-01) that expired on June 30, 2013. In accordance with the NRC Enforcement Policy, this is an apparent violation of NRC requirements. 10 CFR 30.36(a) requires, in part, that each specific license expires at the end of the day on the expiration date stated in the license, unless the licensee has filed an application for renewal under 10 CFR 30.37 not less than 30 days before the expiration date stated in the existing license. This issue will be discussed in separate correspondence.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,
