Subject: ERDS MOU with Texas NSIR-13-0317 G20130651

I discussed the proposed MOU with the POC in Texas Department of State Health Services, Client Services Contracting Unit, Mr. Craig Wilburn. He acknowledged that the current MOU signed in January 2009, was satisfactory, and that a new MOU was not necessary. The request was automatically generated by their contract tracking system that uses five years a default value for requesting new/updated contract documents. This is not necessary for this agreement.

Please close this ticket.

Thank you.
