

Montesino

September 12, 2013

Ms. Margie Kotzalas
United States Nuclear Regulatory Commission
Mail Stop T-8E24
11555 Rockville Pike
Rockville, MD 20852 USA

Dear Ms. Kotzalas:

030-36678

This letter is to inform you that Montesino Technologies, Inc., (Montesino) will not renew 07-30963-01 and 07-039-63-02G, our general and specific licenses.

Aug 27 2013 - 02G / 030-36679

Adam Smith will contact you in the course of the next week to verify how you want us to provide the following points mentioned in NUREG 4556 vol. 3 under "transfer to inactive status."

- The total number of the products sold; the number of products still in use;
- The services (including source replacement and availability) the registration certificate holder will still provide to users of the product or the identification of an entity that will provide services;
- A commitment that the registration certificate holder will no longer commercially distribute the product; and
- Verification that no changes were made to the product since its initial registration or last amendment. If changes have been made, then the new information must be incorporated into the inactivated certificate. However, the changes need not be in a bold typeface because the certificate has a new registration number assigned to it.

Please let us know if there are other items we need to complete. We look forward to your assistance in this process.

Best regards,

Peter

Peter J. Schmitt
