Diablo Canyon Independent Spent Fuel Storage Installation
Updates to Emergency Plan Appendices D and F

Dear Commissioners and Staff:

In accordance with 10 CFR 50.54, and including the requirements of 10 CFR 72.32 for the Independent Spent Fuel Storage Installation, Pacific Gas and Electric Company (PG&E) is providing updated Emergency Plan (E-Plan) Appendix D, Category S, "System Malfunction," and Appendix F, "ERO On-Shift Staffing Analysis Report." Enclosure 1 provides a summary of the changes made to E-Plan, Appendices D and F.

As provided by 10 CFR 50.54(q), PG&E made the changes without prior NRC approval since they do not reduce the effectiveness of the E-Plan, and the E-Plan, as changed, continues to meet the requirements in Appendix E to 10 CFR Part 50 and the planning standards of 10 CFR 50.47(b). Enclosure 2 provides a listing of the applicable revision and corresponding change number for E-Plan, Appendices D and F. Enclosures 3 and 4 provide copies of the revised E-Plan Appendices. The changes are noted by revision bars in the right margin.

These updates do not contain privacy/proprietary information identified in accordance with NRC Generic Letter 81-27, "Privacy and Proprietary Material in Emergency Plans." PG&E makes no regulatory commitments (as defined by NEI 99-04) in this letter.

If there are questions regarding this update, please contact Michael Ginn, Emergency Planning Manager, at (805) 545-6300.

Sincerely,

Barry S. Allen
