TITLE: Waste Confidence—Continued Storage of Spent Nuclear Fuel

COMMENT#: 20

My comment: For the present, leave the waste where it is in dry cask storage. Do not transport over roads and highways, ships or trains. Be still with it! Next, gather leading scientists, ngo representatives, statesmen/women to discuss over a long period of time if there is and what would be a 'permanent' storage solution. Finally, stop creating the waste! De-commission nuclear power plants, weapons facilities, etc. What we are already leaving future generations is enough a crime.

Thank you. Anne Craig, 132 Murdock Ave. Asheville, N.C.
