KING OF PRUSSIA, PENNSYLVANIA 19406-2713

September 24, 2013

Docket No. 03034628
Control No. 581709

License No. 47-25421-01

Jay Borrell
General Manager/Radiation Safety Officer
JELD-WEN
P O. Box 1769
Craigsville, WV 26205

SUBJECT: JELD-WEN, LICENSE AMENDMENT, CONTROL NO. 581709

Dear Mr. Borrell:

This refers to your license amendment request dated September 9, 2013. Enclosed with this letter is the amended license.

The amended license is written in accordance with current NRC policy and includes significant changes in the conditions of the license. Specifically, Conditions 17 and 18 that appear in the previous amendment are incorporated into a single Condition 17 in the amended license. Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license.

If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

J. Borrell
