Dear Berry,

In reviewing your license, I noticed one change that needs to be corrected before we can ship you a source. On item 9. G. you mention an HDR **Classic** remote afterloader. You do not have a classic and the Nucletron source, 105.002 is only for a Nucletron HDR model 105.999 or 106.990. According to our records, you currently have a "**Nucletron microSelectron HDR remote afterloading brachtherapy device, model 106.990**". Please make this change ASAP so that we can ship your source. In addition, since you are making changes, could you also please remove the **Elekta d/b/a Nucletron** as this is the distributor only. Nucletron is still the manufacturer of record for the source and the device. Should you have any questions, please feel free to contact me.

Kind Regards,
Debbie

Dear HDR User:

In preparing for your Ir-192 source replacement, we discovered that the radioactive materials license that we have on file for machine s/n 31485 has expired on 6/30/2012. Please send updated RAM License or timely renewal letter a.s.a.p. in order to avoid delays with your shipment. ***Your source is scheduled for shipment on 10/7, but will be delayed if information is not received in time.***

Thank you for your attention.

Best regards,
Lisa

Re: Request for Correction USNRC Materials License No. 13-02128-03

Dear Sir

This correspondence is sent as a request to correct item 9.G of USNRC materials license No: 13-02128-03.

It was found that in Amendment 53 the words "HDR Classic" was added to the Authorized use (9.G) in the description of the treatment device. We don't have an HDR Classic; it was upgraded several years ago. When the vendor received a copy of the License in order to ship the replacement source it was noticed and prevented the source from being shipped.

The replacement source is being held until such time that the HDR Classic reference is deleted from our license, and I can forward a corrected copy to the Vendor.

As this is a patient care issue, we currently have patients under treatment. We are requesting a correction to the license as soon as possible, also we are requesting you FAX said correction to the number listed below at your earliest convenience.

Thank you for your prompt attention to this patient care issue.

If more information is requested, you may contact me at: 317-528-5173.

FAX: 317-528-5172

Sincerely,

A handwritten signature in black ink, appearing to read "Berry L. Stewart", written in a cursive style.
