Subject: Re: START UP OF SAINT LUCIE

Hello Tim

I received your phone message I do not deal with Oscar D in Atlanta because he was the first of several NRC investigator to drop the ball on this matter, But I will add him to this e-mail.

Besides that he was not at our meeting. Attendants were Senior Special Investigator Senior Resident Inspector Tim Hoeg, Senior Criminal Investigator and myself. That is why i choose you Tim Hoeg as my St Lucie point of contact. YOU TIM HOEG are the NRCs Senior Resident Inspector at SAINT LUCIE NUCLEAR PLANT.. You are in full knowledge of the CRIMINAL INVESTIGATION into the AMES GROUP LLC, by your organization the NRC. I was told by Special agent That it was TIM HOEG's decision about letting SAINT LUCIE NUCLEAR PLANT START UP!! After the accused company(AMES GROUP LLC) performed multiple jobs and testing on SAFETY RELATED NUCLEAR EQUIPMENT. FPL is in violation of there own Policies/Procedures on Contractor TRUSTWORTHINESS!!!! Tim Hoeg you have a legal and moral obligations to the people of Saint Lucie County to not let the NUCLEAR PLANTS START (PSL& PTN). UNTIL CRIMINAL INVESTIGATION of the AMES GROUP LLC IS COMPLETE AND EVERYTHING HAS BEEN VERIFIED SAFE!! NO EXCUSES/EXCEPTIONS! I will call you tomorrow to discuss this URGENT MATTER.. Until AMES is stopped I will keep in touch with District 16 Congressman Tom Rooney, Senator Bill Nelson (Senator Bill Nelson has already inquired into the NRC handling of this case letter dated 2-FEB-12 and the NRC response letter dated 8-FEB-12) I will also keep in touch with all applicable FEDERAL GOVERNMENT & STATE AGENCIES, NATIONAL & LOCAL MEDIA, The A.P, ALTERNATIVE MEDIA INTERNET MEDIA ,SOCIAL NETWORKS (face-book, tweeter ect) and many other MEDIA OUTLETS and ANY OTHER AGENCIES OR ANYONE ELSE that wants to hear about FLP's corporate greed over public Safety and the

**THE SAINT LUCIE NUCLEAR PLANT / AMES GROUP LLC**  
**SCANDAL!!!!!!**

I am sure this will get National Media Attention SOON. As this is much bigger then Just FPL/Next Era Nuclear Plants it is all Nuclear Plants AMES GROUP LLC has worked at. I hope you make the right choice MR Tim HOEG Sr Resident Inspector @ PSL.

DO NOT LET THE NUCLEAR PLANTS START UNTIL THE INVESTIGATION IS COMPLETE  
Sincerely Thomas L King Senior MOV Diagnostic Tester  
26 years Nuclear Exp. Dedicated to Nuclear Safety

Subject: START UP OF SAINT LUCIE

HELLO TIM

Thomas king here seeing that the AMES GROUP LLC has become an UNTRUSTWORTHY EMPLOYEE, as per FPL standards They should have followed there own procedüre. and immediately removed them from site. Stated in the attached letter, Now that AMES GROUP LLC is under CRIMINAL INVESTIGATION by YOUR organization. YOU AS SR RESIDENT INSPECTOR it is YOUR job to stop both FPL PLANTS from STARTING UP, UNTIL AMES IS CLEARED, AND ALL DOCUMENTS AND WORK PERFORMED ON SAFETY RELATED EQUIPMENT AT BOTH PLANTS IS INDEPENDENTLY VERIFIED AND ALL CRITICAL WORK & MOV

**TESTING IS REDONE. Under the circumstances there is NO WAY you can say AMES WORK WAS DONE RIGHT by qualified professionals!!!!. I DEMAND THIS as a resident of ST Lucie County For the SAFETY OF ALL THE PEOPLE OF S FLORIDA AND BEYOND!!!!!!!!!!!!!!!!!!!!!! I hope you as Sr RESIDENT INSPECTOR make the right choice. Because Of FPLs BLATANT DISREGARD FOR PUBLIC SAFETY and to keep using a company that is under criminal Investigation by the NRC and deemed UNTRUSTWORTHY BY FPL OWN PROCURERS. When then presented FPL WITH FORGED DOCUMENT.AGAIN FPL CHOICES PROFIT Over NUCLEAR SAFETY/QUALITY..**

**DON'T LET THE NUCLEAR UNITS PSL/PTN START UP UNTIL INVESTIGATIONS COMPLETE AND THEY ARE SAFE!!!!!!!!!!**

hello all here is a copy of my latest e-mail To the NRC, OSHA, and many other agencies. WE need to stand up for workers rights.. For those who don't know what happened, AMES Group Llc A Nuclear engineering company, submitted a forged Training document to FPL stating I attended an AMES advanced MOV diagnostic training class. signed and dated the ONLY problem is, I NEVER WENT TO THERE TRAINING... GOOD JOB AMES

In November of 2011, I reported a nuclear safety concern to F.P.L. employee concerns dept. to no avail. I was unable to report this to the on duty NRC officer as he was "out". Following NRC guidelines I reported the situation to local & Federal Law Enforcement agencies.

It is now 5 months later, There is a major NRC investigation into Ames Group llc., for the repeated forging & misrepresentation of NUCLEAR TRAINING DOCUMENTS. The investigation is being head by \_\_\_\_\_ with the assistance of Senior Criminal Investigator, ..

The NRC is in possession of at least one forged/misrepresented document and allegations from many sources of wrong doing on the part of Ames Group LLC.

Florida Power & Light representatives admit knowledge of the forged Documents to OSHA and that MR KING was CORRECT in not signing the FORGED documents. However FPL continues to allow AMES Group LLC work at its nuclear power facilities.

Being that AMES GROUP LLC is under federal criminal investigation, and both physical & testimonial evidence is in place. By FPL's own standards Ames Group is no Longer TRUSTWORTHY. The moment the first forged document surfaced Ames Group & it's employees should have been removed from the job site.

Back dating paperwork does not equate nuclear certification.

**FPL's policy is that once a person is deemed UNTRUSTWORTHY PLANT ACCESS IS DENIED IMMEDIATELY!!!! NO EXCEPTIONS Yet FPL took no action against AMES. Is there a COVER UP between FPL & AMES Group LLC?**

**In addition to falsifying certification's Ames Group Executives have lied and misled several federal agencies including OSHA.**

**FPL has taken insufficient steps to ensure public and plant safety. FPL Executives have a legal & Moral obligation to take action & keep the public safe and remove Ames Group Llc from there Nuclear facilities, Until all NRC/OHSA criminal investigations are complete. Are the financial gains really worth risking millions of Lives?**

**Just because we haven't had a catastrophic event yet, doesn't mean we can't have one! How does it feel knowing you have people no more qualified than a janitorial engineer working in critical areas? If they are qualified they need to prove it!**

**AS A CONCERNED CITIZEN AND A 26YR NUCLEAR VETERAN, I DEMAND SOMETHING BE DONE IMMEDIATELY!!**

**DO NOT LET THE PLANTS START UNTIL THE INVESTIGATION IS COMPLETE!!!!**

**Sincerely Thomas L King Senior Diagnostic Field Engineer  
26 years Nuclear Exp**
