and Emergency Management
Room N-3655
200 Constitutional Avenue, NW
Washington DC 20210

SUBJECT: DISCUSSION ON THE RECENTLY UPDATED MEMORANDUM OF UNDERSTANDING

Dear Mr. Weisz:

I wanted to take this opportunity to express our sincere thanks for your significant contribution over the years to the successful update of the Memorandum of Understanding (MOU) between the U.S. Nuclear Regulatory Commission (NRC) and the Occupational Safety and Health Administration (OSHA) MOU. Also, as an early step in the NRC's implementation of the MOU, we would like to formally invite you and Mr. David Johnson, Director, Technical Programs & Coordination Activities, to attend and participate in a meeting with our Regional State Liaison Officers (RSLO's), on November 7, 2013, from 1:30 p.m. to 3:00 p.m. The RSLO's also serve as NRC's primary OSHA liaison.

The purpose of the meeting is to discuss the recently updated MOU and to broadly identify, to our RSLO's and to you, our contemplated next steps as we begin implementation of the MOU. We would appreciate your perspective as well as any insight into OSHA's next steps. We will have a brief slide presentation (draft enclosed), and you are invited to address the group with or without slides. The meeting will be informal with adequate time for discussion, comments, and questions that may arise. As a possible outcome from this meeting, we also hope to have a meeting between our RSLO's and your regional contacts at a later date.

The meeting will be held at Three White Flint North, 13th Floor 11601 Landsdown Street, North Bethesda, MD 20852. We are located at the White Flint Metro Station via (Red Line). Please arrive about fifteen minutes early so you can get processed in by security.

If you have any questions regarding this meeting please contact Mr. Robert Johnson at (301) 287-9083, or e-mail Robert. Johnson@nrc.gov. Please RSVP so we can arrange for your visitor badges. If your schedules permit, we could have lunch before the meeting at our renowned cafeteria. We look forward to seeing you.

Sincerely,

/RA/

James W. Andersen, Deputy Director
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

Enclosure:
NRC Draft Slide Presentation
