Docket No. 03036179  
Control No. 582127

License No. 06-30764-02MD

Edgar Löffler  
CEO  
Eckert & Ziegler BEBIG, Inc.  
115 Hurley Road, Building 3A  
Oxford, CT 06478

SUBJECT: ECKERT & ZIEGLER BEBIG, INC., CONSENT TO TRANSFER LICENSE AND AMENDMENT, CONTROL NO. 582127

Dear Dr. Löffler:

This refers to your letter dated September 18, 2013, describing the proposed transfer of licensed activities to Eckert & Ziegler BEBIG, Inc. From your letter, we understand that this transfer does not result in any change to the licensed location of use, materials, persons using licensed material, or persons responsible for radiation safety at the authorized licensed facility.

Based on the above understandings, we have no objection to this transfer. This also refers to your license amendment request in the same letter. Enclosed with this letter is the amended license transferring licensed activities to Eckert & Ziegler BEBIG, Inc.

Please review the enclosed license carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to

E. Löffler

2

develop and maintain a positive safety culture as you engage in NRC-regulated activities. If you have any questions regarding this please contact me at 610 337-5303.

Thank you for your cooperation.

Sincerely,

***Original signed by Thomas K. Thompson***
