SUBJECT: APPLICATION FOR AMENDMENT TO MATERIALS CERTIFICATE OF  
COMPLIANCE NO. 1031, DOCKET NO. 72-1031– ACCEPTED FOR REVIEW  
(TAC NO. L24757)

Dear Mr. Patko:

By letter dated June 18, 2013, as supplemented September 19, 2013, you submitted an application for amendment of Certificate of Compliance No. 1031, Amendment No.4, Docket No. 72-1031. You requested to revise information regarding Limiting Condition for Operations 3.1.1, Section 1. Staff performed an acceptance review of your application to determine if the application contains sufficient technical information in scope and depth to allow the staff to complete the detailed technical review.

This letter acknowledges acceptance of your application. The application appears to contain the information needed for our technical review. We have established a schedule for the review. The schedule allows for staff to issue a request for additional information (RAI) in December 2013 and a safety evaluation report in May 2014, based on the applicant responding to RAIs in February 2014. If no RAI is needed, and based on the staff's evaluation, the approval may be issued at approximately that time. In general, no additional changes to the application should be submitted except for changes resulting from your response to an RAI.

If you have any questions regarding this matter, please contact me at (301) 287-9202.

Sincerely,
