UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

MAR 9 1981

NOTE TO: NRR Assistant Directors and Branch Chiefs
B. Grimes

FROM: R. L. Tedesco

SUBJECT: FORTHCOMING ACRS MEETINGS ON SAN ONOFRE, MARCH 11 & 12, 1981

The San Onofre 2 and 3 SER was issued on February 6, 1981 and Supplement No. 1 to the SER was issued on February 25, 1981. The ACRS Subcommittee on San Onofre 2 and 3 will meet on March 11, 1981, and the full Committee will consider San Onofre 2 and 3 on March 12, 1981. In order to get a favorable letter from the full committee on March 12, and thereby avoid delays in the project schedule, substantive staff support at both meetings is necessary. Keep in mind that all our efforts to issue a timely Safety Evaluation will be for naught if the ACRS concludes that the staff effort is not sufficiently complete, and requires that the project be addressed again at a later meeting.

The agendas for the two meetings are attached. At the subcommittee meeting on March 11, 1981, staff presentations by R. Benedict, P. Collins, J. Knight, and C. Thomas are requested. Attendance by other staff members is requested, as indicated on the agendas, to answer ACRS questions in areas where the applicant or the staff Project Manager will be making the presentation. Your cooperation in helping to advance this project will be appreciated.

Robert L. Tedesco, Assistant Director
for Licensing
Division of Licensing

Tentative Presentation Schedule
 ACRS Subcommittee on San Onofre 2&3
 Washington, D.C.
 March 11, 1981

	<u>Organizational Speaker</u>	<u>Presentation Time (min.)</u>	<u>Approximate Time</u>
1. Opening Remarks by the Subcommittee Chairman		5	1:30 p.m.
2. NRC Staff Presentation			
2.1 Introduction	_____ Rood	5	1:35 p.m.
o Plant schedule/staffing requirements			
2.2 Standards for Operator Training, Including Simulators	_____ P. Collins	10	1:40 p.m.
2.3 Management Evaluation	_____ R. Benedict	10	1:55 p.m.
o Assessment of the Independent Review Groups, their charter, and how they interrelate			
2.4 Structural Evaluation	_____ J. Knight	10	2:10 p.m.
o Structural audit, comparison with Diablo Canyon review			
o Safety factors for containment stress levels			
2.5 Systems Interactions Evaluation	_____ C. Thomas	10	2:25 p.m.
o Comparison with Zion, Indian Point and Diablo Canyon			
o Review group conclusions			
Break		10	2:40 p.m.
