

JUN 12 1981

Docket Nos.: 50-361/362

APPLICANTS: SOUTHERN CALIFORNIA EDISON COMPANY (SCE)
SAN DIEGO GAS AND ELECTRIC COMPANY (SDG&E)
CITY OF ANAHEIM, CALIFORNIA (ANAHEIM)
CITY OF RIVERSIDE, CALIFORNIA (RIVERSIDE)

FACILITY: SAN ONOFRE NUCLEAR GENERATING STATION, UNITS 2 AND 3

SUBJECT: SUMMARY OF MEETING ON SAN ONOFRE EMERGENCY PLAN

On June 10, 1981, members of the NRC staff met with the applicants' representatives in Bethesda, Maryland, to discuss the FEMA memorandum of June 3, 1981, entitled "Interim Findings and Determination Relating to the Status of State and Local Emergency Preparedness for the San Onofre Nuclear Generating Station (Units 2 and 3)," John E. Dickey (FEMA) to Brian Grimes (NRC). Attendees at the June 10, 1981 meeting were K. Baskin, R. Dietrich, and W. Moody of SCE and E. Christenbury, H. Denton, R. Hoefling, F. Miraglia, F. Pagano, H. Rood, and S. Schwartz of the NRC staff.

At the meeting SCE stated that they intended to correct many of the deficiencies noted in the June 3, 1981 FEMA memorandum, although correction of some of them could take considerable time. SCE indicated that they would like to go forward to the ASLB hearing on emergency preparedness as soon as possible. The NRC staff stated that the staff relied to a large extent on FEMA for a determination of the adequacy of off-site emergency preparedness. The staff suggested that it would be desirable to correct the off-site deficiencies as soon as possible to minimize potential impacts on the San Onofre 2 licensing schedule. The staff agreed to assist in the determination of what would be required to resolve the issue.

At the conclusion of the meeting SCE stated that their goal was to make San Onofre emergency preparedness as good as or better than that at any other nuclear facility.
