re: Strata Energy Inc., Ross In-Situ Uranium Recovery Project, Testing Plan for Sites
48CK1603, 48CK2073, 48CK2076 and 48CK2083 (SHPO File # 0313RLC005)

Dear Mr. Hsueh:

Thank you for consulting with the Wyoming State Historic Preservation Office (SHPO)
regarding the above referenced undertaking.

We concur with your determinations of eligibility for the National Register of Historic Places
(NRHP) as contained in Enclosure 1 of your letter of September 20, 2013.

We further concur that the Testing Plan for Sites 48CK1603, 48CK2073, 48CK2076 and
48CK2083 is adequate to evaluate the NRHP eligibility and project effect for sites 48CK2073
and 48CK2076, as well as project effect on sites 48CK1603 and 48CK2083. We look forward to
reviewing the results of this testing effort.

Contained in Enclosure 2 of your letter of September 20, 2013 are four additional sites identified
during tribal surveys of the Ross Project. These sites will need to be assigned Smithsonian
Trinomials (as appropriate), and be fully recorded on a Wyoming Cultural Properties Form and
evaluated for NRHP eligibility. This recordation will require field verification and
documentation, and evaluations of eligibility/effect may require additional testing. Determining
whether or not these sites should be recorded as new sites, or are extensions of previously
recorded sites, should be done in consultation the WYSHPO Cultural Records Office.

Please refer to SHPO project #0313RLC005 on any future correspondence regarding this
undertaking. If you have any questions, please contact me at 307-777-5497.

Sincerely,

Richard L. Currit
Senior Archaeologist

Matthew H. Mead, Governor
Milward Simpson, Director
