San Onofre Nuclear Generating Station Units 2 & 3

Gentlemen:

The dependence on oil by SDG&E has driven our electricity bills to outlandish heights. We can't afford it. We have cut our consumption 45% and yet our bill nears the \$100.00 mark. It appears that it will go even higher unless something is done very soon. Our electric rates are more than double of a relative who lives in Irvine.

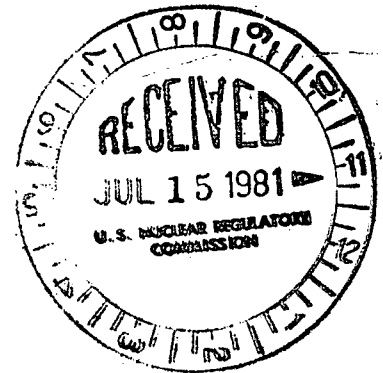

We need the licensing of San Onofre, both units 2 & 3 NOW. Our air cannot support coal burning or the continued use of oil for electricity generation. We feel personally that nuclear is not only very safe, it's also environmentally benign.

Looking at the future for our four children we feel that conservation, solar, wind, geothermal and others are necessary but they can't do it all for this fast growing area, therefore we urge you to approve the licensing of units 2 & 3 at San Onofre.

Sincerely,

*Elsie & Alan Herridge*
