2244 Walnut Grove Avenue
Post Office Box 800
Rosemead, California 91770

Mr. Gary D. Cotton
Senior Vice President
Engineering and Operations
San Diego Gas and Electric Company
101 Ash Street
Post Office Box 1831
San Diego, California 92112

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION, SAN ONOFRE 2 AND 3
(TAC NOS. 66824, 66825, 66820 AND 66821)

Gentlemen:

By letter dated February 22, 1988 you submitted a proposed change to Facility Operating Licenses NPF-10 and NPF 15 to revise Technical Specifications 3.0 and 4.0 and to rewrite the bases for these specifications in their entirety. We have reviewed your request and find that it generally conforms to Generic Letter 87-09. However, in the bases for Specifications 3.0.1 and 3.0.3 you have not indicated that the shutdown Action requirements are not intended to be used as an operational convenience to permit (routine) voluntary removal of a system(s) or component(s) from service in lieu of other alternatives that would not result in redundant systems or components being inoperable. Please provide justification for these omissions.

By letter dated December 14, 1987 you submitted a proposed change to Technical Specification 3/4.10.2, "Group Height, Insertion and Power Distribution Limits," and Tables 2.2-1 and 3.3-1 of Facility Operating Licenses NPF-10 and NPF-15. This proposal included a request to add a Specification 3.0.4 exemption to Table 3.3-1 for inoperability of one or both Control Element Assembly Calculators. Please indicate whether or not this exemption is necessary if the proposed change to Technical Specifications 3.0 and 4.0 (see above) is approved.

Sincerely,

original signed by

Donald E. Hickman, Project Manager
Project Directorate V
Division of Reactor Projects - III,
IV, V and Special Projects
