Subject: Consolidated Annual Data Call for the Global Nuclear Detection Architecture (GNDA) (NSIR13-0341) (G20130697)
Attachments: FY2013 Data Call Input Worksheet (FOUO) - NRC.XLS; Interagency Consolidated Annual Data Call for the Global Nuclear Detecti....pdf

DHS DNDO Executive Secretary

This email and attachment are in response to the DHS memo dated September 26, 2013 from H. Gowadia, regarding the FY13 data call for the Global Nuclear Detection Architecture annual report. As requested in this memo, attached is the Nuclear Regulatory Commission's Fiscal Year 2013 input. The only changes NRC had from last year are the financial costs from the NRC's Office of Federal and State Materials and Environmental Management Programs regarding the National Source Tracking System, License Verification System, and Web-based Licensing and the NRC's Office of International Programs regarding international security assistance. The data call input worksheet has been updated accordingly and the password for this document is unchanged.

If you have any questions, please contact our DNDO detailee, Nima Ashkeboussi, at 202-254-7097 or at Nima.Ashkeboussi@hq.dhs.gov.

This e-mail closes NSIR13-0341/G20130697
