**Re: Proposed Reclamation Surety for 2013-2014; License Condition 9.5
License Number SUA-1598, Docket 40-9068**

Dear Director,

On October 21, 2013 Lost Creek ISR, LLC ("LCI") submitted to the State of Wyoming and Bureau of Land Management the Annual Mine Report which included the proposed 2013-14 reclamation surety for the Lost Creek Permit. The NRC was cross copied with the same document. With this letter, LCI requests the NRC review the proposed reclamation surety that was included in the October 21, 2013 letter in order to satisfy license condition 9.5 (Tables RP-4 and RP-5 of the submittal). Per conversation with the NRC, LCI is submitting the surety estimate to all agencies with surety oversight at the same time so there is a consistent and timely review once per year.

The substantial increase in the surety amount is mostly due to the increase in wellfield area that will require groundwater restoration. Many costs were recently quoted and are noted as 2013 costs in the line item. When new quotes were not received the previous year's cost was multiplied by the Consumer Price Index and the cell was grayed.

If you have any questions regarding this letter or require additional information please feel free to contact me at (307) 265-2373.

Sincerely,
Lost Creek ISR, LLC
