Gentlemen:

Your letter dated December 3, 1982, remitted certain fees pursuant to 10 CFR 170.22 and provided your basis for not remitting the requested Class III fee for Change No. NPF-10-14 which was included as part of your May 14, 1982 application for license amendment for San Onofre 2. Change No. NPF-10-14 related to the implementation date for the environmental qualification surveillance program. The staff of the Office of Nuclear Reactor Regulation (ONRR) have reassessed their fee position on Change No. NPF-10-14. As a result of this reassessment, they agree with your position that additional fees are not applicable for your May 14 application.

Thank you for bringing the particulars of this case to our attention.

Sincerely,

Original Signed by:
