2013 ILT Exam Question Log 4/16/2013

Person Asking Question	Time Asked	Question Number	Question	Answer
V. Hawthorne	0915	43	Are there any conditions present that result in a system start signal?	Re-read stem to the student. No additional information provided
B. Bauer	0940	43	Same as above	0945 contacted NRC (B. Palagi) to discuss question. Requested providing clarification that the students are to assume no other conditions other than those in the stem when answering the question. This information was provided to all applicants in writing on a "white board" in the examination room.
C. Lubahn	1004	45	Questioned the timing of the information in the stem, and the word "displaced".	Re-read the stem to the student. No additional information was provided.
