Director, Office of Nuclear Reactor Regulation  
Attention: Mr. Albert Schwencer, Acting Branch Chief  
Licensing Projects Branch 3  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Gentlemen:

Subject: Docket Nos. 50-361 and 50-362  
San Onofre Nuclear Generating Station  
Units 2 and 3

SCE's letter of May 12, 1980, forwarded seven copies of "Offshore Geophysical Maps" (interpretations) prepared by Dr. P. J. Fischer of California State University at Northridge. The information upon which Dr. P. J. Fischer based his interpretations has subsequently become available to SCE and is enclosed (NRC mail code B024). Also enclosed are seven copies of logs of two onshore borings (NRC mail code B024), located on El Camino Real approximately 500 feet northeast of the Cristianitos fault. These borings were performed to reaffirm the Applicants previous assessment which was transmitted to the NRC on June 11, 1980, relative to the offset of the Cristianitos fault.

If you have any questions or comments concerning this information, please contact me.

Very truly yours,

*K P Baskin*
