Subject: Communications Between the Combustion
Engineering Owners Group and the
Nuclear Regulatory Commission

Dear Mr. Denton:

The Combustion Engineering Owners Group has requested that I advise you of its recently established policy regarding the subject communications. This policy will assist in reducing the uncertainty in determining the communicants on issues and thereby improve the effectiveness of all parties concerned.

Submittals made by the C-E Owners Group to the NRC will not be applicable to any individual licensee until the submittal is referenced by that licensee for use on his docket. Should the NRC have questions within the scope of any C-E Owners Group submittal, they should be addressed to the Owners Group Chairman with copies to the appropriate Owners Group Subcommittee Chairman, C-E and each Owners Group member. The individuals to whom copies should be addressed will be identified with each future Owners Group submittal.

Questions from the NRC on issues beyond the scope of previous submittals made by the C-E Owners Group should be addressed only to the individual licensees. The licensees will then consider the extent of the C-E Owners Group involvement, if any, in an appropriate response.

The C-E Owners Group feels that this communication policy serves the best interests of the Owners Group, individual licensees, and the NRC.
