MAR 5 1979

Docket Nos. 50-361/79-6
50-362

Southern California Edison Company
P. O. Box 800
2244 Walnut Grove Avenue
Rosemead, California 91770

Attention: Mr. J. B. Moore
Vice President

Gentlemen:

Subject: NRC Inspection at San Onofre Units 2 and 3

This refers to the inspection conducted by Messrs. J. O. Elin and G. Hernandez of this office during the period January 2-5 and 15-26, 1979, of activities authorized by NRC Construction Permit Nos. CPPR-97 and CPPR-98, and to the discussions of their findings held with Mr. H. B. Ray and other members of your staff on January 5 and 19, 1979.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting

790413 0016

that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so that any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

G. S. Spencer, Chief
Reactor Construction and
Engineering Support Branch
