Subject: Initial Reactor Operator and Senior Reactor Operator
Licensing Examinations and Requalification Retake Examinations
at San Onofre Nuclear Generating Station (SONGS) Units 2 and 3

During the period July 22-31, 1991, the NRC administered examinations to thirteen reactor operator and seven senior operator upgrades candidates who had applied for licenses to operate your SONGS 2 and 3 Nuclear Power Plant facilities. Requalification retake examinations were also administered during the July 22-31, 1991 time period to one reactor operator and one senior reactor operator. All thirteen reactor operators and all seven senior operators passed their examinations and were subsequently issued a license. Both requalification retake operators passed their examinations.

No major deficiencies were identified during the examinations.

An exit meeting was held on July 31, 1991 with members of your staff.
