Subject: Additional information for amendment request

(NOTE: This will be used as the
Documents Title in ADAMS)

I contacted the licensee to follow up on information provided in a letter dated September 11, 2013. The letter was a notification of the licensee's plan to cease nuclear medicine activities on or around October 31, 2013. The licensee recently transferred the location of use for the cardiology practice in Waterford, CT to their other hospital license (License No. 06-09261-01).

1. I asked Ms. Phillips to:
 - a. Submit a letter clarifying that they wish to terminate the cardiology license (06-30826-01) and would be submitting an amendment request to remove the location of use from the hospital license once they cease activities; and
 - b. Provide a completed and signed NRC Form 314 for license termination.
2. I inquired about the management representative (Daniel Rissi, M.D.) that signed the letter, and if there has been a change from the individual that signed previous correspondence. Ms. Phillips confirmed that they have new management and Dr. Daniel Rissi, Vice President/Chief Medical & Clinical Operations Officer, is currently the management representative for the hospital. I also verified Dr. Rissi's position on the hospital's official website.

Ms. Phillips agreed to provide a response to above items by the end of the week.
