March 30, 1982

Director, Office of Nuclear Reactor Regulation  
Attention: Mr. Frank Miraglia, Branch Chief  
Licensing Branch No. 3  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Gentlemen:

Subject: Nos. 50-361 and 50-362  
San Onofre Nuclear Generating Station  
Units 2 and 3

SCE's letter of March 22, 1982 submitted Amendment Application No. NPF-10-1 in Docket 50-361 for the San Onofre Nuclear Generating Station, Unit 2. The letter indicated that direct distribution of the amendment application would be made within ten days of docketing in accordance with the service list provided in SCE's letter of May 18, 1981 to the Commission. Our reference to the May 18, 1981 letter was in error; the letter was dated May 21, 1981. In addition, SCE stated that an affidavit would be provided affirming that the distribution had been made.

Consistent with the Notice of Assignment of Atomic Safety and Licensing Appeal Board, for Docket 50-361 and 50-362, issued on January 15, 1982 and to incorporate the May 21, 1981 service list into the official service list utilized in connection with the service of documents in the subject proceedings currently under consideration by the Atomic Safety and Licensing Board and the Atomic Safety and Licensing Appeal Board, the service list has been revised.

Enclosed is an affidavit attesting to the fact that direct distribution, in accordance with the revised enclosed service list, of Amendment Application No. NPF-10-1, consisting of Proposed Change No. 1 to the Facility Operating License No. NPF-10 has been completed.

Very truly yours,

M. O. Medford  
Supervising Engineer  
San Onofre Units 2&3 Licensing

BEFORE THE UNITED STATES NUCLEAR REGULATORY COMMISSION

Application of SOUTHERN CALIFORNIA EDISON )  
COMPANY, ET AL. for a Class 103 License to ) DOCKET NO. 50-361  
Acquire, Possess, and Use a Utilization )  
Facility as Part of Unit No. 2 of the San ) Amendment Application  
Onofre Nuclear Generating Station ) No. NPF-10-1

SOUTHERN CALIFORNIA EDISON COMPANY, ET AL. pursuant  
to 10 CFR 50.90, hereby submit Amendment Application  
No. NPF-10-1

This amendment consists of Proposed Change No. 1 to  
the Technical Specifications incorporated in Facility Operating  
License No. NPF-10 as Appendix A. Proposed Change No. 1 is a  
request to revise Appendix A Technical Specification  
3.4.8.3.1.a to clarify the Code requirements for the Shutdown  
Cooling System (SDCS) Relief Valve consistent with existing  
clarification for the Pressurizer Safety Valves. No physical  
changes are required to the plant.

The amendment clarifies existing ASME Code requirements for this Code-compliant valve. Accordingly, it is concluded that (1) the proposed change does not involve an unreviewed safety question as defined in 10 CFR 50.59, nor does it present significant hazard considerations not described or implicit in the Final Safety Analysis, and (2) there is a reasonable assurance that the health and safety of the public will not be endangered by the proposed change.

Pursuant to 10 CFR 170.22, Proposed Change No. 1, submitted as Amendment Application No. NPF-10-1, is determined to be a Class II change. The basis for this determination is that the change has no safety or environmental significance.

Accordingly, the fee of \$ 1,200.00 corresponding to this determination is remitted herewith as required by 10 CFR 170.22.

Subscribed on this 22nd day of March, 1982

Respectfully submitted,

SOUTHERN CALIFORNIA EDISON COMPANY
