Gentlemen:

Subject: Docket No. 50-361
Amendments 4, 6 and 7
San Onofre Nuclear Generating Station
Unit 2

Reference: NRC-SCE letter, from R. Diggs to R. Dietch, dated October 18, 1982

On February 16, 1982 the Commission issued an operating license for San Onofre Unit 2. Since that time SCE has submitted 13 Amendment Applications to the operating license. These applications were submitted with the appropriate fees per our interpretation of 10 CFR 170.22. The referenced letter identified three items in which your staff has a different opinion of the required fees. These items are as follows:

| <u>Application</u> | <u>Fees Paid</u> | <u>Fees Applicable</u> | <u>ONRR's Basis for Fees</u> |
|---|------------------|------------------------|---|
| 1. 5/14/82 (a) Administrative changes (NPF-10-2 and 10 thru 13) | \$1,200 | \$1,200 | Administrative in nature, App. by Am. 4 issued 07/16/82 |
| (b) Env. Qual. Surv. Program (NPF-10-14) | None | 4,000 | Single Safety issue, App. by Am. 7 issued 09/07/82 |

| 2. 07/09/82 (formal 07/12/82) Fire Detection Instruments | 1,200 | 4,000 | Single Safety issue, App. by Am. 7 issued 09/07/82 |
| 3. 08/05/82 (formal 08/31/82) Containment Purging | 1,200 | 4,000 | Single Safety issue, App. by Am. 6 issued 08/31/82 |

|-----------------------|---------------|
| Total Fees Applicable | \$13,200 |
| Total Fees Paid | <u>-3,600</u> |
| Total Fees Due NRC | \$ 9,600 |

We have reviewed these applications and we concur with Items 1.(a), 2, and 3. We do not, however, concur with Item 1.(b). Item 1(b) was initially a license condition requiring that several items relating to the environmental qualification program be completed "by June 30, 1982 or prior to exceeding five (5) percent power, whichever comes first."

This license condition was the result of criteria established by Commission Memorandum and Order CLI-80-21. The June 30, 1982 deadline established by CLI-80-21 was subsequently removed by the Commission (47 F.R. 28363, June 30, 1982). We feel that since the Commission had already made the decision altering the required implementation date for utility adherence to NUREG-0588, there was no safety issue for the staff to resolve and therefore this was an administrative type change to be included with Item 1(a) above. Consistent with this interpretation a check for Items 2 and 3 (\$5,600) is enclosed.

If you have any questions regarding our position or require further clarification, please contact me.

Very truly yours,
