Washington, DC 20555-0001

Subject: **PSEG Early Site Permit Application**
Docket No. 52-043
Document in Support of Application
Early Site Permit for the PSEG Site

- References:
- 1) PSEG Power, LLC letter ND-2013-0006 to USNRC, Submittal of Revision 2 of the Early Site Permit Application for the PSEG Site, dated March 27, 2013
 - 2) PSEG Power, LLC letter ND-2012-0061 to USNRC, Response to Request for Additional Information, No. Env-07, ESP EIS 2.7 – Historic and Cultural Resources, dated October 4, 2012
 - 3) PSEG Power, LLC letter ND-2013-0030 to USNRC, Document in Support of Application Early Site Permit for the PSEG Site, dated October 2, 2013

On May 25, 2010, PSEG Power, LLC and PSEG Nuclear, LLC (PSEG) submitted an Application for an Early Site Permit (ESP) for a site near Salem, New Jersey (the PSEG Site). On March 27, 2013, PSEG submitted revision 2 of the ESP application.

The Application contains an Environmental Report (Part 3) that describes the suitability of the PSEG Site to support construction and operation of up to two additional nuclear units relative to the impact on the environment. The ESP Environmental Report also describes the resultant impact on aquatic ecological resources.

In Reference 3, PSEG provided, at the NRC staff's request, a CD-ROM containing a copy of the *Draft Addendum to the Historic Properties Visual Impact Assessment* and preliminary *Draft Programmatic Agreement*. "Re: PSEG Early Site

D079
NRD

Permit Application, Salem County, Lower Alloways Township, New Jersey". The CD-ROM files in Enclosure 1 of Reference 3 were too large to be entered into ADAMS. Enclosure 1 to this letter provides a replacement CD-ROM containing the *Addendum to the Historic Properties Visual Impact Assessment* report with files of an appropriate size to be entered into ADAMS. PSEG requests that NRC replace the CD-ROM submitted in Reference 3 with the CD-ROM in Enclosure 1 and destroy the CD-ROM provided in Reference 3.

If any additional information is needed, please contact David Robillard, PSEG Nuclear Development Licensing Engineer, at (856) 339-7914.

I declare under penalty of perjury that the foregoing is true and correct. Executed on the 31st day of October, 2013.

Sincerely,

James Mallon
Early Site Permit Manager
Nuclear Development
PSEG Power, LLC
