Accordingly, it is concluded that (1) the proposed changes do not involve an unreviewed safety question as defined in 10 CFR 50.59, nor do they present significant hazards considerations not described or implicit in the Final Safety Analysis, and (2) there is a reasonable assurance that the health and safety of the public will not be endangered by the proposed change.

Pursuant to 10 CFR 170.22, Proposed Change No. 112, submitted as Amendment No. 105, is determined to be a Class 2 change. The basis for this determination is that the change is administrative in nature, dealing with methods to control personnel access to high radiation areas.
