July 6, 1983

Director, Office of Nuclear Reactor Regulation  
Attention: D. M. Crutchfield, Chief  
Operating Reactors Branch No. 5  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Gentlemen:

Subject: Docket No. 50-206  
NUREG-0612, Control of Heavy Loads at Nuclear Power Plants  
San Onofre Nuclear Generating Station  
Unit 1

- References:
1. Letter, K. P. Baskin, SCE, to D. M. Crutchfield, NRC, NUREG-0612, Control of Heavy Loads at Nuclear Power Plants, January 19, 1983
  2. Letter, R. Dietch, SCE, to H. R. Denton, NRC, San Onofre Nuclear Generating Station, Unit 1, June 10, 1983

The referenced letter indicated to you that we will complete our bid evaluation of lift rigs for the reactor coolant pump motors and equipment hatches by September 1, 1983. This evaluation is complete and the lift rigs will be constructed by Westinghouse Electric Corporation. The completion schedule for these lift rigs and the modification to the north turbine deck extension are to be established in the resolution of the proposed plan in Reference 2.

If you have any questions, please let me know.

Very truly yours,

*KP Baskin*
