Office of Nuclear Reactor Regulation  
Attention: Mr. H. R. Denton, Director  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Gentlemen:

Subject: Docket No. 50-206  
Amendment Application No. 124  
San Onofre Nuclear Generating Station  
Unit 1

Enclosed are three executed and forty conformed copies of Amendment Application No. 124 to Provisional Operating License No. DPR-13. Amendment Application No. 124 consists of Proposed Change No. 140, which is a revision of the Conditions of Provisional Operating License No. DPR-13.

Proposed Change No. 140 is a request to revise the Contents and Conditions of Provisional Operating License No. DPR-13 to require the installation of a post-accident sampling system by July 1, 1986 or startup from the Cycle IX refueling outage, whichever is earlier. The inclusion of this license condition in Provisional Operating License No. DPR-13 will revise the NRC Order Confirming Commitments for San Onofre Unit 1 dated March 14, 1983.

Pursuant to 10 CFR 170.12 as revised in 49 FR 21293 dated May 21, 1984, Amendment Application No. 124 is determined to require a fee of \$150.00. Accordingly, SCE's Check No. T032736 in the amount of \$150.00 to cover the fees is enclosed as required by 10 CFR 170.12.

Very truly yours,

Enclosures
