Attention: Mr. J. B. Martin, Regional Administrator

Dear Sir:

Subject: Docket No. 50-206
Semiannual Radioactive Effluent Release Report
San Onofre Nuclear Generating Station, Unit 1

Environmental Technical Specification 5.6.2 of Provisional Operating License No. DPR-13 for San Onofre Nuclear Generating Station, Unit 1, requires a semiannual report of the radioactive content of effluents released to unrestricted areas and shipments of solid waste during the previous six months be submitted within sixty days after December 31, 1983. Pursuant to this requirement, the semiannual report for July 1, 1983, through December 31, 1983, is enclosed. Due to a clerical error, this letter was inadvertently distributed on February 23, 1984, without the enclosure.

This report has been prepared in the general format of NRC Regulatory Guide 1.21, sections pertinent to SONGS 1. Included in this report are quarterly effluent summaries, percent of Technical Specifications Limits, estimated total percent error, lower limit of detection concentrations, 40 CFR 190 consideration, meteorological data and 10 CFR 50, Appendix I considerations.

Please contact us if we can be of further assistance.

Sincerely,

ORIGINAL SIGNED
