Gentlemen:

Subject: **Docket Nos. 50-206, 50-361, and 50-362
Facility Change Report
San Onofre Nuclear Generating Station
Units 1, 2, and 3**

This letter transmits the Facility Change Report required by 10 CFR 50.59(b)(2) for San Onofre Units 1, 2, and 3 for the period from January 1, 1994 through the end of the Unit 3, Cycle 8 refueling outage (9/26/95). The report contains a brief description of facility changes, procedure changes, tests and experiments completed during that period.

Enclosure 1 provides a summary of the facility changes implemented during that period, including a summary of the safety evaluations performed for each change. Complete facility change documentation is available onsite should more detailed information be desired. Enclosure 2 provides a summary of changes to procedures as described in the Safety Analysis Report. There were no special tests or experiments performed during the reporting period.

If you require any additional information, please let me know.

Sincerely,

Walter C. Marsh
