Gentlemen:

Subject: **Docket Nos. 50-206, 50-361, and 50-362**
Facility Change Report
San Onofre Nuclear Generating Station
Units 1, 2, and 3

This letter transmits the Facility Change Report required by 10 CFR 50.59(b)(2) for San Onofre Units 1, 2, and 3 for the period from September 27, 1995 through the end of the Unit 3, Cycle 9 refueling outage (July 21, 1997). This report contains a brief description of facility changes and procedure changes, including any tests and experiments that were completed during that period.

Enclosure 1 provides a summary of the facility changes implemented during the reporting period, including a summary of the safety evaluations performed for each change. Complete facility change documentation is available onsite should more detailed information be desired. Enclosure 2 provides a summary of changes to procedures as described in the Safety Analysis Report. Enclosure 3 provides a report on commitment changes made per NEI "Guidelines for Managing NRC Commitments." Enclosure 4 describes Licensee Controlled Specification changes.

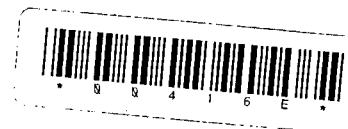

If you would like any additional information, please let me know.

Sincerely,

9801230301 980121
